What is Best Companies Group?

Best Companies Group is an independent research firm specializing in identifying and recognizing great places to work. BCG manages Best Places to Work programs throughout the U.S., Canada and the U.K.

Assessment description

The assessment is a two-part process designed to gather detailed data about each participating company. In part one, the employer completes the Employer Questionnaire. In part two, up to 400 employees of the company complete a satisfaction survey.

Part I – Employer Questionnaire (EQ)

The employer (main company contact) will complete the survey, detailing company policies, practices, benefits and demographics. The employer will be asked to complete the EQ online.

Part II – Employee Engagement & Satisfaction Survey (EESS)

The employee survey is an in-depth set of statements (78) that employees will be asked to respond to on a 1-5 scale of “Strongly Disagree” to “Strongly Agree”. This section of the survey will also include two open-ended questions, and seven demographic questions.
